

RB22 Heavy Duty Crash Tested Barrier

Product Info:

The RB22 Barrier is the **"Highest Approved Plastic Barrier"** system on the UK Highways approval list.

The robust and highly capable RB22 barrier is a versatile, yet strong and flexible one-piece water fillable system.

It is tested and approved to British Standards BS EN1317-N1 50mph (80kph). On impact, the system has the ability to bring an errant vehicle to a controlled stop.

In independent wind tests, the RB22, when correctly water filled, withstood speeds of up to 78mph.

Key Features:

- Crash tested to BS EN 1317-N1 50mph
- Quick deployment with up to 180 metres per load
- No heavy lifting machinery needed
- Wind tested up to 78 mph
- Accessories Available:
 - Mesh and/or Hoarding Panels
 - Pedestrian & Vehicle Gate Systems
 - Angles and Front & End Stops

Specifications:

Product	RB22
Length	2000mm
Width	500mm
Height	800mm
Weight (E / F)	60 / 600 kg
Colour	Red / White
