

## Rota Slot

### Product Info:

The Rota Slot has been designed to support 3.5 metre fence panels.

Fence panels are easily secured using the safety bolt fastening, which provides both strength and stability whilst preventing the panels from being removed or tampered with.

Once water filled, each unit will provide a substantial ballast weight of over 300kgs.

2 Rota Slots along with a standard 3.5m mesh fence panel has been tested successfully to 67.3 mph
