

Rubbish Chutes - 20"

Product Info:

A versatile chute system ideal for situations where a rigid system is impractical.

Each chute and side entry unit is supplied fitted with brackets and chains for safe and secure linkage.

Stackable for storage and transport. Fixing frames are available as an accessory and should be used to hold the system in place.

A window mounting frame or fixing frame allows you to dispose of rubbish from inside a building, allowing the rubbish to be disposed of safely from a higher level.

Key Features:

- Made from High Quality MDPE & HDPE
- Abrasion Resistant
- Top and Side Hopper Sections Available
- Stackable for Storage & Transport
- Optional Fixing Frames
- Spare Chains & Brackets Available
