

Pedestrian Gates

Product Info:

Oaklands pedestrian gates are compatible with our range of heavy duty water filled barriers.

Gates are available as Anti-climb mesh or solid hoarding versions

Both versions compliment the additional mesh or hoarding panels available with the barrier systems and allow ingress to an otherwise secure site.

Gates are supplied, as standard, with a sliding latch to allow for padlocking

Key Features:

- Compatible with Industry Standard Ballast Foot
- Available in Two Options - Mesh or Hoarding
- Mesh Extensions Available to Compliment Barrier Run
